YOU: LOST: SOMETHING!

If you didn't read our advertisement in this paper last week. We told you something about the difference between "ready-made" Clothing as you understand that term, and the Clothing we sell. The kind of ready-made, or "hand-me-down" Clothing, against which you have such a prejudice, is made out of nobody knows what, h nobody knows who, and it comes f nobody knows where. The people who make it and those who sell it, do business on the "sucker-born-every-hour" principle. They don't expect to see a eustomer but once, and have no idea of building up trade on the reputation of the goods they make or sell. Guess you've been bit once or twice, and to avoid being swindled again you have been paying high prices for goods made to order. The point we made was simply this: Having been merchant tailors (as we are still) for nearly half a century, we have learned how to fit and please men, and have adopted the merchant tailor system of making up goods which have all of the advantages of goods made to measure, and have placed the class of goods in stock. We also buy from other large wholesale tailoring establishments in the East, whose goods are made on the same plan, for no one house could possibly supply our immense trade. Every piece of Clothing, whether made by ourselves or others, by merchant tailors when they make your Clothing to order. In fact, it is better than that. Leaving out the question of fit and quality, which are quaranteed, if you are NOT SATIS-FIED WE WILL GIVE YOUR MONEY BACK.

Now, If you run no risk whatever in buying from us, and if you can get your Clothing for 10 to 50 per cent, less than you are paying, won't it pay you to give us a trial? We would be glad to have you wear a Sult of our Clothes and give the snap away to
